**State Representative William Snyder Lauds Florida Senate for
Passing Measure to Curb Human Trafficking in Florida**

Tallahassee, Fla. – Following the passage of House Bill 7049 regarding human trafficking by the Florida Senate, House Judiciary Chairman William Snyder (R-Stuart) released the following statement:

“I am pleased the Florida Senate has recognized the importance of putting a stop to human trafficking in Florida. With their vote, reducing this modern day form of slavery in Florida moves one step closer to becoming a reality.

“It is vitally important that our community of law enforcement officers and state attorneys have the tools they need to combat human trafficking in our communities. If enacted into law, House Bill 7049 will provide them with essential tools and ensure Florida’s human trafficking laws are among the toughest in the nation.

“I thank Attorney General Pam Bondi and Senator Flores for their support, the Senate for passing this critical bill and I look forward to swift approval from Governor Rick Scott.”
